

Avante Bariton

Marke:

Artikelnummer: 041132

Verfügbarkeit: In Stock

Gewicht: 0.00kg

Abmessungen: 0.00cm x 0.00cm x 0.00cm

Preis: 900.00CHF

Short Description

This is a long scale **baritone acoustic guitar**, designed to be tuned to a low B with an extra long **27.75" scale length**

You can play it just like an ordinary acoustic guitar and get huge low end sounds without a bassist. The scale is long enough to get good string tension to support the low pitch, but still feels comfortable for a guitarist. Such a cool instrument. Plus it looks amazing.

Designed by the legendary luthiers Michael **Tobias** & Joe **Veillette**, & discontinued for years, this model is probably best known for Ani DiFranco & Keller William's use of it.
