Kurzbeschreibung

The Violet Master's Choice does not compromise on sound or workmanship. The soundboard of the instrument is made from carefully selected Engelmann spruce, whose excellent acoustic properties are further enhanced by our innovative individual voicing process. The back and sides are made from African mahogany. This combination gives the guitar a perfectly balanced sound with clear highs, warm bass and long-lasting sustain. In addition to a number of dark decorative details, the beautiful natural appearance of the instrument is further enhanced by our Open-Pore Finish.

The Violet Master's Choice is fitted with the LR Baggs Stagepro Element system, which features a side-mounted preamp with a tuner.
